

CHEM 1035/1045 Enrollment Information

Summer Orientation 2024

ELIGIBILITY FOR ENROLLMENT IN CHEM 1035/1045

- To enroll in CHEM 1035, students must qualify by having the appropriate AP/IB/CLEP score in chemistry or calculus, by having credit for a math class or CHEM 1014, or by earning the minimum score on the ALEKS Placement Assessment. Eligibility requirements are found here: <https://chem.vt.edu/academics/undergraduate/chem-readiness.html>. Students will not be able to enroll in CHEM 1035 until they have met one of the eligibility requirements.
- There is one placement assessment for both CHEM 1035 and MATH 1225. More information on the placement assessment can be found here: <https://chem.vt.edu/academics/undergraduate/chem-readiness/faq.html>.
Also, see the CHEM 1035 Eligibility Quick Guide included at the end of this document for policy changes from Fall 2023.
- Students in majors that require CHEM 1035/1045 for graduation have received multiple emails through Slate about this Placement Assessment; please ensure that your advisees are aware of this requirement.

CHEM 1034 FOR STUDENTS WHO COULD BENEFIT FROM EXTRA HELP IN CHEM 1035

General Chemistry Recitation, Chem 1034, is a one credit hour, pass/fail course designed to accompany Chem 1035. Chem 1035 is a co-requisite for this class. Students must be enrolled in Chem 1035 for enrollment in Chem 1034. If a student decides to withdraw from CHEM 1035 later in the semester, they should withdraw from CHEM 1034 as well. There are several sections of CHEM 1034, in the Fall 2024 timetable. This one credit, pass-fail class is intended to provide extra support for students who are eligible for CHEM 1035, but who have weaker math foundations and desire extra problem-solving practice. Each week, CHEM 1034 students complete a worksheet and a graded quiz and have the opportunity to get help with CHEM 1035 concepts from the recitation instructor. Students with ALEKS CHEM 1035 Placement Assessment scores between 61-70 are strongly encouraged to enroll in CHEM 1034 as studies have shown that students in this score range perform better in CHEM 1035 from the extra problem-solving skills that they gain from CHEM 1034.

CHEM 1014 FOR STUDENTS WHO ARE NOT ELIGIBLE FOR CHEM 1035

Students who do not become eligible for enrollment in CHEM 1035/1045, can gain eligibility by enrolling in CHEM 1014, Chemistry Calculations. CHEM 1014 focuses on skills such as solving word problems, using a calculator, and manipulating algebraic expressions with the end goal of preparing students for success in CHEM 1035 in a subsequent semester. Note: CHEM 1014, Calculations in Chemistry, 3 credits, will be

offered online in Summer Start. A passing grade in CHEM 1014 will earn eligibility to enroll in CHEM 1035 for Fall 2024. CHEM 1014 will be offered in-person in Fall 2024. A passing grade in this course will earn eligibility to enroll in CHEM 1035 in Spring 2025.

WAITLIST FOR OTHER MAJORS

- Students whose current majors do not require CHEM 1035 for graduation may not enroll in CHEM 1035/1045 at this time.
- These students can place their names on the wait list found here: <https://virginiatech.questionpro.com/t/AWpnmZ121a>
- We will place as many waitlist students as we can into CHEM 1035, beginning about August 10. Students on the wait list will have to become CHEM 1035 eligible before enrolling in CHEM 1035.

CHEM 1035 PLACEMENT AT VIRGINIA TECH -CHEM 1035 ELIGIBILITY QUICK GUIDE

Virginia Tech will continue to use ALEKS PPL to assess students for placement into CHEM 1035. The following are the only updates from Fall 2023:

- Access to remote testing will close on July 31, 2024.
 - Assessment must be ***started no later than 11:59pm ET on 7/31/24***. Students will still have 3 hours to *complete* the assessment .
 - Students who have not exhausted all three assessments, will have the opportunity to complete assessment(s) through in-person testing at Virginia Tech (see dates shown below).
 - Students can still access the Prep and Learning Module from Thursday, August 1, 2024, until in-person testing opens, but no VT ALEKS Placement Assessments can be completed during this time. *IMPORTANT: Progress in the Prep and Learning Module and 'Knowledge Checks' do not qualify as VT ALEKS Placement Assessments and, therefore, cannot be used to earn eligibility to enroll in CHEM 1035.*
- We will offer in-person testing at Virginia Tech.
 - We are waiting for confirmation of availability of the in-person testing center at Virginia Tech.
 - For now, we can guarantee students can assess at the testing center by Monday, August 26, 2024.
- The last day that a student can begin a VT ALEKS Placement Assessment toward Fall 2024 enrollment is Wednesday, August 28, 2024 (time TBD).

	ACCESS OPENS	ACCESS CLOSES
REMOTE TESTING	OPEN NOW!	Wednesday, July 31, 2024
Remote Testing Closes at 11:59pm ET on Wednesday, July 31, 2024*		
IN-PERSON TESTING AT VIRGINIA TECH	*No later than August 26, 2024	Wednesday, August 28, 2024

Other important information and reminders are below.

1. Access to VT ALEKS Placement Assessments is open now!
2. Each VT student is limited to a maximum of three (3) assessments.
 - o REMINDER (Updated November 2022): Students can take ALEKS assessments in more than one testing period. Regardless of when assessments are taken, *once a student has completed a third assessment, that student may not take another assessment.* Once a student registers in ALEKS, they have access for a period of 12 months.
3. CHEM 1014, Calculations in Chemistry, 3 credits, will be offered online in Summer Start. A passing grade in CHEM 1014 will earn eligibility to enroll in CHEM 1035 for Fall 2024.
4. CHEM 1014 will be offered in-person in Fall 2024. A passing grade in this course will earn eligibility to enroll in CHEM 1035 in Spring 2025.

IMPORTANT: Seats in CHEM 1035 are subject to availability. As a result, we encourage students to earn eligibility as soon as they are able to, especially if they will consider taking CHEM 1014 over the summer.

Evaluation	<p>Incoming students will NOT receive an evaluation based on SAT/transcript data.</p> <p>All incoming and transfer students who intend to take CHEM 1035 in Fall 2024 will be required to</p> <ul style="list-style-type: none">• earn a score of 61 or better on the ALEKS Placement Assessment <p>- OR -</p> <ul style="list-style-type: none">• have a qualifying score on AP/IB/CLEP. The score must be reported to VT and appear in Hokie SPA. <p>- OR -</p> <ul style="list-style-type: none">• have credit for CHEM 1014, MATH 1014, MATH 1025, MATH 1214, MATH 1536, or MATH 1225.
------------	--

Hokie SPA	<p>Students and advisors can view a student’s CHEM 1035 eligibility through the orientation page on Hokie SPA. Fee	Free of charge for students.												

Notification	<p>Students in majors requiring CHEM 1035 will be notified of CHEM 1035 Placement guidelines and ALEKS access, via email, beginning March 18, 2024. Emails will continue to be sent as students accept admission (3 days after acceptance).</p> <p>While only students in select majors will receive email notification (via SLATE), any Virginia Tech student <u>who has not completed three (3) assessments</u>, is <i>eligible</i> to complete a VT ALEKS Placement Assessment. The Chemistry Department will not send email notification to continuing students or students in majors not requiring CHEM 1035.</p> <p>Reminder emails will be sent to First-year students who have accepted their offer of admission so far, as well as our future offers (Transfers + any additional First-years) three days after they accept and through July 25. An email will also be sent when the availability of the testing center is confirmed. A final reminder about in-person testing will be sent to incoming students in August.</p>
Students who do not earn qualifying score	<p>Students who do not earn eligibility to enroll in CHEM 1035 through the VT ALEKS Placement Assessment or a qualifying college level exam score should enroll in CHEM 1014. See https://chem.vt.edu/undergraduate/chem-readiness.html</p>
CHEM 1035 Eligibility for continuing students	<ul style="list-style-type: none"> ● Passing score on a VT ALEKS Placement Assessment for CHEM 1035; for the 2024-25 academic year this means 61 or higher - OR - ● Qualifying score on an approved AP/IB/CLEP exam https://chem.vt.edu/undergraduate/chem-readiness.html - OR - ● Qualifying grade on an approved math class or CHEM 1014 https://chem.vt.edu/undergraduate/chem-readiness.html - OR - ● Previous enrollment in VT CHEM 1035 <p>NOTE: Transfer credit for CHEM 1035 does not satisfy a CHEM 1035 prerequisite</p>
