WHAT IS STUDENT COACHING?

Student coaching embraces the ideals and core competencies of life coaching—a collaborative, solutions-based, result-oriented process that facilitates the attainment of goals in order to improve a person’s life experience.

In student coaching, we hold our students more accountable and usually have a tighter plan with more frequent contact than in general life coaching.
HOW CAN COACHING BENEFIT YOUR STUDENTS?

Coaching helps you support students to effectively manage academic, social and executive function challenges.

Especially in a time of Covid, many students struggle with learning modality shifts, transition issues, lack of motivation and feelings of isolation. Coaching skills can deepen the connection and improve communications with students.
Belief: Students are creative, whole, and resourceful.

- Student driven agenda
- Open-ended questions
- Genuine curiosity
- Non-judgmental
- Accountability and check-ins
THE COACHING PROCESS

Exploration of client’s wishes, needs, and desires

Goal-setting to support those wishes, needs, and desires

Check-in with self and coach

Action steps to achieve goals

A BRIEF INTERACTION
WHAT DID YOU NOTICE?
KEY COACHING SKILLS

- Accountability
- Acknowledgement
- Active Listening
- Asking Permission
- Brainstorming
- Bottom-Lining
- Offer Positive Feedback
- Powerful Questioning
- Reflecting Back
- Reframing
- Requesting
CONNECTION TO ADVISING
CONNECTION TO ADVISING

Developmental advising: Advisor takes a holistic view of each student to maximize that students’ educational experiences in an effort to foster his or her academic, personal, and career goals towards future success.

Appreciative advising: Advisor include components within their advising of: building trust and rapport, uncovering strengths, co-constructing plans, and providing support and accountability.

Strengths based advising: Advisors taking a strengths-based approach to use students' talents, defined as naturally reoccurring patterns of thought, feeling, or behavior that can be productively applied (Clifton and Harter, 2003, p. 111)
LET’S PRACTICE: POWERFUL QUESTIONS
SHIFT TO OPEN ENDED QUESTIONS

- Can you realistically handle that class given your current commitments?
- Are you feeling discouraged?
- Will do you do something to improve your grades?
- Are you studying hard in your classes?
- Do you think you should get extra help in that class?
- Are you getting involved on campus?
EXERCISE 1: DEVELOPING POWERFUL QUESTIONS

In pairs, choose one area of life that students typically struggle with:

• Academic stress
• Organization
• Time management
• Course load
• Self-advocacy
• Roommate concerns
• Motivation
• Others?
LET’S PRACTICE: ACTION AND ACCOUNTABILITY
STUDENT DRIVEN ACTION STEPS

RHYMES WITH ORANGE

The Home Office

You call it chaos.
I call it "floorganized."

By Hilary B. Price
ACCOUNTABILITY

What are you going to do?
By when?
How will you be accountable?

* Consider ‘do it now’ strategies
EXERCISE 2: ACTION STEPS AND ACCOUNTABILITY

Divide into groups of two. Decide who will coach first (each of you will get a chance). Use the topic that you chose, role play coaching a student through that topic using open ended powerful questions. If you get stuck, go back to your list of powerful questions and ask your partner that question. Work them to an action plan.

** When inserting your opinion or providing a suggestion, please ask permission: ”Would you be interested in hearing other students tackle this issue?”
THE CYCLE OF SUCCESS

Motivation → Progress → Success
