## Feature Spotlight

### NEW! NavAI: Content Creator

The Content Creator tool is now available in any messaging window within Navigate! This tool helps improve messages to students by checking for tone and length. Simply provide a prompt, request enhancements, and review the suggested changes—you can choose to accept or deny them. To use this feature, look for the “Enhance with AI” option below the message box when composing a message in Navigate.

The screenshot shows a 'Send A Message' dialog box. It includes a 'Subject' field, a 'Message' field with a rich text editor toolbar (Paragraph, Bold, Italic, Link, etc.), and a section for AI enhancement. The 'Enhance with AI' option is highlighted with an orange arrow. Below this, there are fields for 'Prompt' (with a placeholder 'What would you like help to write?'), 'Tone' (a dropdown menu), and 'Message Length' (a dropdown menu). At the bottom, there is a small disclaimer and an 'Enhance' button.
