Webinar Series

[Navigate Student](#)

September 12, 1:00-2:00pm via Zoom

Join us as we walk through the Navigate Student website and review some key features.

Functionality

Navigate serves as a secondary data source. Student information is transferred from Banner to Navigate nightly and reflects data for the current term only. Be careful when reviewing report data from past terms. Student attributes may be different now than what they were in that term. On August 11, Navigate transitioned from the summer term to Fall 2024.

Feature Spotlight

Study Buddies

Study Buddies, available in Navigate Student, allows students to form study groups with classmates in the same CRN. By opting in, students allow their classmates who have also opted in to contact them via email. Safety precautions for group meetings are highlighted when opting in, and students can leave the group at any time. If a student drops a course, they are automatically removed from the Study Buddies group for that course.

To view a demo of Study Buddies, please click on [this link](#) which will take you to the Help Center provided by EAB. You must log into the Help Center with your SSO to view this article.
