FEBRUARY 2020

NEW REFERRAL OFFICE

Corps of Cadets is now a referral location within Navigate. If you are working with a student who is part of the Corps of Cadets, they have direct contact with cadets at all times and make sure every one of them is provided the needed resources to be successful.

UPDATED CHART

Based on feedback we have adjusted the chart for referral offices/units within Navigate. This new chart has six tabs across the bottom for general areas of need, and within the tab, each referral office is listed with specific details related to the referral office.

Top user within the platform for the month of January 2020 is Cara Conley from the Academy of Integrated Science with the most active time on Navigate!

CALENDAR RECURRING EVENTS NOT SYNCING?

If you find that your calendar is not syncing, especially a recurring event, I would recommend deleting the recurring event on your calendar and adding it back. When you add the event back I would only allow it to recur for 6 months at a time to keep it from becoming stale and no longer syncing with Navigate.
