

NAVIGATE

Monthly Newsletter

DECEMBER 2020

CHANGES COMING

Some minor updates are coming to the platform mid-January. More details will be in our January newsletter so be on the lookout!

Top user within the platform for the month of November 2020 is Laura Townsend from the Pamplin College of Business with the most active time on Navigate!

ACTIVE STUDENT DEFINITION ADDITION

We recently added students with a future admit term to the active student definition in Navigate. This means newly admitted students who are not registered yet will now appear in Navigate, which will be helpful when it comes time for orientation.

NEW TAG

We added a new tag labeled 'All online classes spring 2021' to students who are currently enrolled in all online classes for spring. We will be updating this tag the first week of classes and again following the last day to add/drop since students will be changing their schedules throughout that time.
