

NAVIGATE

Monthly Newsletter

JUNE 2019

USING NAVIGATE DURING ORIENTATION

Incoming students will be accessible within Navigate once they have enrolled in at least one credit hour and a nightly refresh has occurred. Therefore, if you batch students, once the batch has occurred and a nightly refresh takes place, they will be in the platform. You may find it useful once students leave orientation to begin putting any communication from orientation forward in Navigate as a report.

MINOR SERVICES COMING

We are in the process of providing minors as services within the Navigate platform. We are hoping to have these set-up prior to the start of the Fall 2019 semester.

Top user within the platform for the month of May 2019 is Susan Haymore from College of Science with the most active time on Navigate!

HAVE QUESTIONS ABOUT THE PLATFORM?

Do you have questions about the platform functionality or see a data discrepancy? Please let the VT Navigate team know by emailing EABHelp@vt.edu. Contacting our VT team directly will assist in identifying likely causes sooner than trying to troubleshoot yourself or attempt to email EAB since it may be a VT specific issue.
