OCTOBER 2019

### PROGRESS REPORTS FOR STUDENT ATHLETES

SAASS requests progress reports for their student athletes once a semester to gauge how they are doing in their classes. The first round of requests for fall have taken place and can be found on the individual student's page under reports/notes tab in the progress report section. These can be used by advisors to celebrate successes in their classes in addition to being aware of potential issues in a course. SAASS will be providing the intervention for student athletes, but this can be another point of information advisors can be aware of.

### ADDITIONAL REFERRAL OFFICE

Cultural and Community Centers is now a referral unit under "Issue an Alert." Students should be referred to the Cultural and Community Centers when an underrepresented or underserved student is facing difficulties in areas such as sense of belonging, identity exploration, cultural inclusion, etc. All referral offices can be found [HERE](#) with the reasons why you would refer to a particular office and protocol following the referral being made.

Top user within the platform for the month of September 2019 is Jennifer Hanratty from the Department of Political Science with the most active time on Navigate!

### RESIGNATION IMPACTS ON FIRST SEMESTER STUDENTS

When a student resigns from their first semester of enrollment, their "role" is removed in Navigate due to no longer being an active student and not having past enrollment. Therefore, you will be unable to see any previous appointment summaries or information related to the student. If this happens please email [EABhelp@vt.edu](mailto:EABhelp@vt.edu) to request the "student role" be reactivated. Please include the student's initials and ID number.
