Assigning Advisors in Banner (SGAADVR)

Given the number of advisors now using Navigate and their constraints for advising directly impacted by advisor assignments it is more important than ever to make sure their assignments are correct. The easiest and most accurate way to make sure the student has the correct advisor assigned and nothing gets overwritten is to use SGAADVR. When we use SZAADVR, often times folks will either put in Y to make themselves the primary when first entering their own ID and it kicks out the other primary (either they check Y by mistake or enter the wrong term) or the previous advisors are not ended and doesn't remove them like they want to or it overwrites it. Please view [the video](#) with directions on how to assign advisors using Banner using SGAADVR.

DEI FYI

Celebrate Women's Month this March by [participating in events](#) hosted by the Women's Center and campus partners. Advisors can get involved on an ongoing basis by joining the [VT Women's Alliance](#) for continuous community and learning.
